Operator: _____ ***cod.***_____

Multiannual Crop Rotation Plan

According to point 7a of the Management plan for agricultural production, to maintain or increase the soil fertility, the following multiannual crop rotation plan is implemented in the farm; this plan is valid until there's a communication for a significant change:

Plot/s number [1]	**Crop**[2]						
	1 year 2009	**2 year 2010**	**3 year 2011**	**4 year 2012**	**5 year** _____	**6 year** _____	**year …** _____

Notes from the operator:

Date _____ Signature of the Operator *(or his delegate)*

_____

Agronomical Assessment *(by the ICEA Resp.Cert/Inspector)*

Satisfactory ☐ Not satisfactory ☐

Notes/prescriptions to adopt:

Date and signature for approval

_____

[1] In case of farms with a high number of plots, it's possible to indicate just one time the crop rotation applied, listing all the involved plots. Moreover, also just the general crop rotation applied can be indicated, without specifying the plots involved.

[2] While specifying the crops, prefer the following: specie (wheat, lettuce, fava bean), or , if it's the case, the crop type/order (cereals, forage legumes, leaf vegetables, etc.)
